

NEW YORK WAS IN THE CENTER

Gotham Suffers Severely From the Terrific
Gale of Sunday...Many Are Dead.

SHIPPING DAMAGED EVERYWHERE

Two Cyclones Met Off the Atlantic Coast--Telegraphic
Communication Was Entirely
Shut Off.

(Special by Scripps-McRae.)

New York, Nov. 13.—After having been cut off as a result of the storm which swept away the telegraphic communication has been re-established early this morning. For a time Sunday the telegraphic circuits connecting New England, Baltimore, and Philadelphia were the only ones in working order. The storm began at eleven o'clock a. m., with a drizzling rain, which soon turned into a heavy, wet snow. Owing to the width of the storm's path there was much delay in railway traffic anticipated. After five ineffectual attempts to rescue eleven passengers of the ferry boat Port Norris, which went ashore near College Point last night, they were finally taken off in a launch. It was one of the most desperate attempts at rescuing ever seen in New York harbor. The crew of the ferry remained aboard. It is thought the boat can be saved. Three "Trusties" confined on the island in east river were out in a row boat which was swept away. It is believed the men are drowned.

The Western Union and Postal telegraph companies have no direct communication with cities farther south than Baltimore, and all western points are cut off. All news to the west is being sent by cable to Newfoundland, then across Canada and into the United States.

In this city, the full force of the gale was felt in the harbor. Several boats dragged their anchors. Off the Massachusetts coast a schooner was wrecked and its crew of ten is supposed to have perished. Several other storm fatalities are reported from various points.

Wind's Velocity Increases.
Starting from Florida Saturday night, the storm of wind and rain came up the coast at almost cyclonic speed. Early Sunday morning it was central off Cape Hatteras, although its evergathering force was felt far to the northward.

Rain began falling in New York at 5 a. m. and early in the morning changed to a wet snow. The wind, which had been blowing moderately, veered to the southeast and shortly assumed hurricane proportions. At 6 o'clock the local weather bureau noted a velocity of forty-two miles an hour, which increased to forty-eight miles at 8:30 o'clock. That speed kept up for several hours.

At 10 o'clock the storm center was at Block Island, where the barometer showed a pressure of 28.62 inches, with the wind blowing seventy-six miles an hour.

TRIED TO "TALK THINGS OVER" WITH GOVERNOR

An Insane Man Makes a Scene in Executive
Mansion at Madison--Was Soon
Arrested.

(Special to The Gazette.)

Madison, Wis., Nov. 14.—Albert Smith was arrested at the home of Governor La Follette today while trying to see the Wisconsin executive. After his arrest Smith said he did not want to kill the governor, but merely to "talk things over." He claimed to be omnipotent and said he could burn Madison, capitol and all, in just one hour, by simply waving his hands, so, and saying "burn, burn, burn." He says he would not kill any persons, but they'd only be good, but I'll make it hot for the devils out at Ithaca.

"I am the greatest man on earth, and have been appointed by God to rule the world," Smith said to Mrs. La Follette, who had been called to the door.

Leaving the maid to parley with the man, Mrs. La Follette telephoned to the police. Smith readily accompanied the officer to the station. On being searched no weapons were found. Smith claims his home is in Ithaca, Wis., a country place twenty-two miles west of Madison. He said he had appointed Frank Lewis, a plasterer at Ithaca, as first lieutenant of the world and might want Governor La Follette as an assistant, but would "have to think it over carefully." He had \$14, a little penknife and a considerable quantity of social democratic literature. He is 21 years old.

COUNTY BOARD IS TO MEET TOMORROW

Soldiers' Relief Commission Was in
Session Today Preparing
Report

The Soldiers' Relief commission, consisting of Simon Smith of Beloit, C. A. Greer of Evansville, and W. G. Palmer of this city, are in session at the courthouse this afternoon. A report will be made at the meeting of the county board tomorrow. The session of the board is called for Tuesday afternoon.

Teach Chess in School.
The game of chess is still included in the curriculum of Russian schools.

miles an hour. At Nantucket the barometer was a trifle higher and the wind sixty miles an hour.

Wires Go Down.

Shortly after noon the telegraph companies began to feel the effects of the storm. As wire after wire went down and city after city was lost, the repair gangs were notified, but owing to the day and heavy storm it was long after dark before the full force could be mustered.

Late in the afternoon it was reported that over one hundred poles along the Erie railroad had gone down, completely putting the New York-Buffalo-Chicago wires by that route out of service. Recourse for a short time was had to wires via Albany and Syracuse, but a few hours afterward the pressure of the ice on the wires carried them, poles and all, to the ground outside of Poughkeepsie, thereby effectively closing the service.

The Western Union was able to keep open the way to Baltimore, Philadelphia, and most places in New Jersey, but business for other points, save New England, was only accepted subject to delay.

Many Boats Ashore.

The ferryboat Port Norris, running between College Point and Ninety-fifth street, Manhattan, went ashore on a rocky ledge in Bowers bay. There were ten passengers and crew aboard. Owing to the heavy sea it was impossible to send wrecking boats, but a police boat has gone to the rescue.

A freight barge, apparently unloaded, was blown ashore, during the height of the gale in Sandy Hook bay, off the old dynamite battery. The vessel lies in a bad position, with every sea sweeping the decks. The fate of the crew is unknown.

Battleships Have Two Anchors Out.
Owing to the high seas in the upper harbor the ferryboats to Staten Island were compelled to tie up.

The battleships Maine and Missouri, which are lying in the roadstead off Tompkinsville, are riding well, but have full steam up and double anchors out.

At Bellevue hospital a tent occupied by eighteen tuberculosis patients was lifted by the wind and the suffering people were exposed to the elements. They were removed to the hospital as soon as possible, although most of them were drenched to the skin.

BABCOCK TELLS WHAT IS COMING

Wisconsin Congressman Announces
That Tariff Is To Be
Considered Next.

(Special by Scripps-McRae.)

Washington, Nov. 14.—Congressman Babcock of Wisconsin, a member of the ways and means committee, has declared for tariff revision and predicts Roosevelt will call an extra session of congress after March 4th to revise the tariff schedules. Babcock asserts the reduction of the tariff will eventually increase the government revenue ten per cent through the increased importation.

American Troops Abandoned on the
East Coast of Samar
and Killed.

(Special by Scripps-McRae.)

Manila, Nov. 13.—News was received here that nine scouts of the thirty eighth company and one American attached to the hospital corps had been killed in an ambush on the east coast of Samar.

Father Neptune—See here, Mr. Japan, if you sink that Baltic fleet I don't really see how I'm going to be able to get about down here.

DON'T CARE A RAP FOR THE RESULTS

University Students Are Discouraged
Over the Game with
Minnesota.

(Special to The Gazette.)

Madison, Wis., Nov. 14.—Chicago students, who are superstitiously inclined, they express the belief that it will be a case of three times and out with the Badgers this year and that Chicago will do as well as Minnesota and Michigan against Wisconsin. What spirit there remained at Madison to encourage the team after the Michigan game was eliminated by the repetition of the same disaster at Minneapolis. The situation at Madison is not that of gloom, but rather of indifference. The students "don't give a whoop" as one expressed it, how hard the Badgers are whipped in the Thanksgiving day game at Chicago.

While Minnesota, on the basis of comparative scores, may have as good a claim as Michigan to the title of champion of the middle west gridiron, the claim of the Wolverines is second in Madison and reasons are advanced for it. It is suggested that Wisconsin was in far better condition when the Michigan game was played than last Saturday at Minneapolis. Two weeks ago the Badgers were in fair physical condition, although not possessed of powers of endurance. There were no crampings, however, on the team. But Michigan bungled the Badgers up badly and in the two weeks of preparation for the Gophers there was little or no hard work and notwithstanding the administration of the "rest cure" accidents to the best players multiplied and the team was in a deplorable situation when taken to Minneapolis. Therefore Michigan is placed over Minnesota by Badger critics. Against these claims and opinions is the fact that all teams are considered to be stronger toward the close of the season and in comparative score calculations games late in the schedule are given more weight than early contests.

Coach Curtis and Cochems will begin early in the week to prepare for Chicago, but little heart remains in the Badger camp.

MORE ACTIVITY IS BEING SHOWN

Telegram from Mukden This After-
noon Report Several Skirmishes
Are Taking Place.

(Special by Scripps-McRae.)

Mukden, Nov. 14.—The Japanese are displaying great activity to the eastward and there are signs of a serious engagement taking place within a few days. Kuroki has made his disposition to block a possible flanking movement.

WAS EXPELLED AS A SUSPECTED MAN

Editor of Venezuela Herald Ordered
to Leave the Coun-
try.

(Special by Scripps-McRae.)

Washington, Nov. 14.—A. F. Jaurez, the editor of the Venezuelan Herald, has been ordered expelled by Castro. It is understood Jaurez took the side of the Asphalt company in their recent trouble. He has always defended the American interests. It is believed he is an American.

CZAR TO SEND A RESERVE CORPS

Orders Show That the Situation Is
Considered To Be
Critical.

(Special by Scripps-McRae.)

St. Petersburg, Nov. 14.—The czar has decided to send the 21 division infantry of the guards to Manchuria. The guards are usually only sent to the front when there is a monarch or grand duke in command.

CLINTON MAN FELL UNDER THE TRAIN

C. R. Porter Started to Step Off
Moving Train Near Harvard.
Reported To Have Died.

C. R. Porter, a printer who had been employed in the office of The Herald at Clinton, met with a terrible accident at Harvard last evening. He had taken the early evening train over the North-Western for Lake Geneva and as it was pulling out of Harvard evidently decided to get off there. Losing his footing he fell under the cars and had both legs cut off. Word was received at the Clinton Herald office this morning that the man died during the night. Little was known of him, except that he was supposed to have formerly lived in Iowa and to have a wife living somewhere in that state. He was about sixty years of age.

MANY MILLIONS FOR A RAILROAD

Siberian Railroad Is to Be Double-
Tracked at Once by
Russia.

(Special by Scripps-McRae.)

St. Petersburg, Nov. 13.—The emperor has approved of a plan for double tracking the Siberian railroad. Five million dollars has been assigned for the beginning of the project.

JAPS ATTACKS WERE REPULSED

Desperate Fighting in the Neighbor-
hood of Mukden on
Sunday.

(Special by Scripps-McRae.)

Mukden, Nov. 13.—The village of Yuchuan was attacked on the night of November twelfth by the Japanese who were repulsed with a little loss. There was occasional artillery firing along the line Saturday, especially on the fort.

BAD EXAMPLE SET YOUNG STUDENTS

Massachusetts Boy Shoots His Would-
Be Hazer--Will Leave the
University.

(Special to The Gazette.)

Madison, Wis., Nov. 14.—Albert B. Grunert of Chicago, a sophomore in the University of Wisconsin, was shot in the leg Saturday by Walter R. Mason of Brookline, Mass., son of the night editor of the Boston Globe. The shooting affair developed out of an attempt on the part of Grunert and other students to throw Mason into Lake Mendota for wearing Michigan and Minnesota football colors and rejoicing in the gridiron disasters of the Badger eleven. When he danced for joy at the supper table the other student boarders declared they would haze him. He said:

"You don't dare. You are all cowards. You have no more sand than your bum football team."

Later a plan was made to seize him in the lake and when he appeared on the porch of the house where he rooms the bunch surrounded and began to drag him to the lake, three blocks away. He yelled out:

"Let me go or I'll shoot you dead."

He managed to get a 32-caliber revolver from his pocket and pumped bullets at his assailants. One of the students grabbed the gun-arm in time to make the shots go low. It is believed this saved the lives of some in the crowd. A bullet hit Grunert in the leg and inflicted a painful but not necessarily serious wound. Surgeons extracted the ball. Strangely, no arrests have yet been made. The Madison police say they will not act unless a complaint is made and none of the students shot at have yet taken action in this direction. Mason says he has carried the revolver since he came west from Boston in September. He declares he thought they were going to kill or drown him and that he was compelled to shoot to save his own life.

TWO VESSELS ARE SWEEPED TO DOOM

Report Comes From Boston on the
Severe Storm of Sunday
Along the Coast.

(Special by Scripps-McRae.)

Boston, Mass., Nov. 14.—So far as is known only two vessels were lost as a result of the storm which swept the Atlantic yesterday and last night. The schooner Arcularius went ashore on Naushon Island and the crew of four perished. The schooner Nautlius was wrecked in Gloucester harbor and the crew saved.

AT LAKE ERIE THE STORM WAS BAD

It Is Feared Many Vessels Were Lost
in the Gale That Swept Over
the Lake.

(Special by Scripps-McRae.)

Cleveland, Nov. 13.—It is feared many vessels were lost in the sixty mile gale that swept over Lake Erie with possibly a heavy death list. The few ships that weathered the terrific wind and sea were battered almost into helplessness. The life-saving crews are holding themselves in readiness to the assistance of ships in distress all along the lake.

INDIAN LAND FOR THE WHITES

The Last Reservation in Oklahoma May Be
Thrown Open to Settlers Very Soon.

MATTER WILL GO TO CONGRESS NOW

Delegate McGuire Will Make a Determined Effort To Have
Large Tract of Land Thrown Open
Immediately.

Guthrie, Ok., Nov. 13.—The only remaining Indian reservation in Oklahoma, if the plans of the promoters carry, will soon be opened to settlement by whites, and no richer country in resources has ever been donated by the government to homesteaders. This reservation includes the lands of the Osage, Horace Speed, United States attorney for Oklahoma, has presented to Secretary Hitchcock a plan for opening the reservation. No definite action was taken, but the secretary and attorney general instructed Mr. Speed to prepare a detailed statement for closer examination. It remains to be seen whether the next congress will act.

Garden Spot of Oklahoma.
The Osage and Kansas reservation lies in northeastern Oklahoma, along the east and north valleys of the Arkansas river, and contains 1,500,000 acres of land, a large part of which is capable of producing large crops of wheat, corn, potatoes, cane and fruits. With the proper cultivation it would be the garden spot of Oklahoma. Oil, natural gas, coal, lead and zinc are found on the reservation.

The Osages are wealthy and very lazy. They have \$5,500,000 held in trust for them by the United States government, which allows 5 per cent interest, or about \$425,000 a year. About \$300,000 of the interest fund is paid to the tribe as an annuity, amounting to about \$200 per capita.

Farms for \$1,000.
In addition to his work for statehood legislation for Oklahoma, at the coming session of congress, Delegate Bird S. McGuire will make a determined effort to have the large pasture reserve in Comanche county, Oklahoma, thrown open to white settlement. If he is successful over 1,000 persons will have an opportunity to secure farms of 160 acres each; to be exact, there will be 1561 farms.

It will be remembered that when the Kiowa-Comanche country was opened to settlement three years ago, in the proclamation issued by President McKinley, 480,000 acres of land in Comanche county were set aside for pasture purposes, the rental money to go to the Indians. The lands

among the pastures have been improved and what has been done with other Comanche county land in three years can be accomplished with the many acres in the pasture reserve. Plans are already afoot to construct irrigation dams which will flood the entire reserve and 123,000 acres in addition whenever deemed necessary.

Creek Nation Lands.
In Indian territory the Creek nation is the only one in which the opening of the Indian land is assured. The allotment there is practically complete and it is only a question of a short time when white people can buy lands there. There are approximately 450,000 people in Indian Territory. Four-fifths of these are United States citizens. In the Creek Nation there are 14,000 Indians and only about 5,000 of them are full bloods, the others having a half, quarter, eighth and sixteenth Indian blood in their veins. Inter-marriage with the whites is not recognized in the Creek Nation. Despite this fact, letters are received daily by members of the Dawes commission from young men in the east seeking Indian wives. Some of them are so little interested in the details that they ask the commission to pick out wives for them among the Creek girls, thinking that by such marriage they will get Indian lands.

Seeking New Homes.
The Indians, among the full bloods, who have been allotted, are still restless, chafing under the restraint of civilization, and desire to move to the wilds of old Mexico, free to live their accustomed lives. Especially is this true in Oklahoma of the Kiowas, whose lands were opened to settlement three years ago.

Thousands and thousands of acres of the best land in the old Kiowa-Comanche reservation belong to the Kiowas, and not one acre in ninety is under cultivation and never will be under Indian owners. There are many white leaders in the territory who advocate the removal of the Indians in accordance with their wishes, leaving them to make their homes where civilization is not likely to disturb them.

RUSSIAN SHIP STRIKES A BIG ROCK, AND IS DAMAGED

Armed Cruiser Crombol Is Reported To Have
Been Severely Damaged in
the Hull.

Tokio, Nov. 14.—It is reported that the armored cruiser Crombol struck a rock and was severely damaged at Vladivostok. It is understood that the accident happened during a trial of the Crombol after repairs had been completed.

It is said that the cruiser returned to its berth in a sinking condition, surrounded by a fleet of smaller craft, which kept it afloat, and that it was redocked. If the report is true it assures the continuance of inactivity of the Vladivostok squadron.

Seek For Weak Places.
Tokio, Nov. 14.—There are indications that if Kouratoki decides to attack Oyam before winter sets in, in earnest he will strike his heaviest blow on the westward in the hope of smashing the left wing of the Japanese army near the railroad.

All the news from the front shows this. Almost all the Russian guns shell the Japanese positions, and the Japanese scouting parties are constantly testing the Japanese lines in efforts to find places here and there weak enough for infantry to work through.

The latest attempt was on last Friday, when a force of 500 Russians attacked the Japanese line near Sinozaiton. It was in no sense an attack intended to bring on a general engagement, but it was much more formidable than any effort made by the Russians in many days.

Russian Shells Are Fewer.
Fusan, Nov. 14.—The Russian forces are still encamped north of the Shakho river. The Russian bombardment of the Japanese lines has lessened lately. From the beginning it has accomplished surprisingly little damage, although on many days a hundred big shells were fired. No Japanese were killed by the bombardment and only a few were wounded.

COTTON FACTORY DID NOT OPEN

Manufacturers at Fall River, Massa-
chusetts, Not Able to Work
the Mills.

(Special by Scripps-McRae.)

Fall River, Nov. 14.—The attempt of the manufacturers to open the cotton mills today resulted in a failure. Only a few persons reported for work. No disorder was reported.

STATE LEAGUE IS
ALMOST CERTAINOF BEING FORMED TOMORROW
AT MEETING IN OSHKOSH.

MONEYED MEN BACKING PLAN

James T. Powers Taking Initial Steps
Toward Formation of Such Or-
ganization—Cities Interested

It is expected that the Wisconsin State Baseball league will be organized in Oshkosh Tuesday, and this will bring into one federation the baseball talent of the Badger state for the first since 1887, when James A. Hart, president of the Chicago National league club, was manager of the Milwaukee team and Frank Selee, present manager of the Cubs, was manager of the Oshkosh team. The old league was disrupted chiefly because of the exorbitant salaries paid, but the conditions are different now.

The Organizer
John T. Powers of Chicago, well-known as an organizer of small baseball clubs and leagues has brought about the meeting for the purpose of organization. It is expected that there will be twelve cities in the league, including Marinette, Green Bay, Appleton, Waubesa, Chippewa Falls, Eau Claire, La Crosse, Janesville, Beloit, Sheboygan, Fond du Lac and Oshkosh. These may be roughly divided into the east and west sections: Marinette and Green Bay, Appleton, Sheboygan, Fond du Lac, and Oshkosh being in the eastern circuit, while Waubesa is the half way station, making the west end with La Crosse, Eau Claire, Chippewa Falls, Janesville, and Beloit, the outlook for the new league is said to be bright and it is understood to have the endorsement of many of the leading business men in the towns represented.

The Cities
In discussing the proposed league, Mr. Powers said: "Marinette, with the city of Menominee, Mich., just across the bay, has a population of 25,000 to draw from. In the Fox River valley, each of the cities mentioned, Green Bay, Appleton, Fond du Lac, and Oshkosh has a suburban population of about 25,000 to draw from in addition to the urban population, which in each of these cities ranges from 18,000 to 20,000. La Crosse has 35,000 persons within its limits and a large tributary population. Chippewa Falls and Eau Claire are neighboring cities, both popular and connected by interurban electric line, representing a total population of nearly 40,000. Janesville and Beloit are also connected by electric line, and the joint population will approximate 20,000.

As to Iowa
These figures as to population are significant as is shown by comparison of cities represented in the Iowa state league of the eight cities in that league. Burlington is the only one with more than 20,000 inhabitants, the others ranging from 9,000 to 19,000 inhabitants. There are no interurban railways connecting any of the towns in the Iowa circuit. The point is clear that if these smaller cities of the Hawkeye state can support a flourishing state league, the more populous cities of the equally affluent state of Wisconsin, can do the same thing, and can moreover maintain a league that will graduate new celebrities in the game.

Would Be Successful
With business to back the different clubs would probably be a success. The stock company idea advanced by Mr. Powers when he was making the circuit, it is understood, is being considered favorably in many of the towns, and it is likely that the plan will be carried out successfully.

The Backers
According to Mr. Powers, Fred Carney, a lumberman, vouches for the Marinette team. The Green Bay team is backed by William McGinnis, the player and umpire. Louis Dunbar, a cigar dealer, will direct the fortunes of the Eau Claire team, with the assistance of Robert Parkinson, proprietor of the Eau Claire hotel, and Mr. Dowling, a business man. Charles Fairweather is sponsor for the Sheboygan team, while William Bronckhurst has sufficient confidence of the Fond du Lac business men to enable him to put a good team in the field.

The Local End
When Mr. Powers visited Janesville last Monday night in the intervals of the proposed league, he had

AIR SHIPS THAT
SAIL IN CLOUDSGreat Invention of This Age Being
Exhibited at the St. Louis
Exposition.

St. Louis.—A great deal of enthusiasm has been aroused among the world's fair visitors and citizens generally by the trial trips of the two balloons which have already been proved to be really dirigible. Baldwin's California Arrow and Benbow's Montana Meteor. This is particularly true of the former which on its second trip and later daily trips has made innumerable evolutions at various heights above the exposition grounds and the surrounding country, frequently in the face of the wind, maneuvering as skillfully as a yacht or a bird. Other aerial crafts, of entirely different patterns from either of these, are to make ascents at the exposition during the next few days, but far the largest dirigible balloon here, and the one which many expect to prove the most successful of all, is La-Ville de St. Mande, invented and owned by Hippolyte Francois, of Paris.

This machine has a gas bag 105 feet long, 35 feet in diameter and 111 feet in circumference, weighing 902 pounds, and having a capacity of 6,000 cubic feet. It is made of a peculiar kind of cotton canvas invented by Mr. Francois for this express purpose, which is much stronger than any of the stuffs from which balloons are commonly made. Very great strength was necessary to resist the accidents of travel and the pressure of the immense body of hydrogen gas that it contains. Within it is a smaller bag, or bellonette, about one quarter as large as the other, into which air is admitted to take the place of the gas that is allowed to escape, and thus preserve the shape of the outer balloon.

The car is about 85 feet long and six feet wide, and weighs 3,100 lbs. It has long banks fore and aft of a triangular construction, consisting of a single rod above and two parallel rods below, these longitudinal rods being connected at intervals by cross bars which form a succession of complete triangles, set vertically and transversely, as in the case of the Baldwin airship. The central rod is 100 feet long, and is a solid platform surrounded by a railing and firmly braced to the other portions of the structure. The car is made of pine wood, except in the parts subject to the greatest strain, which are of steel.

The solidity of the construction insures perfect rigidity and equilibrium, so that no energy or time are lost in balancing. When at rest the car is sustained at a length of two or three feet above the ground, by fore and aft supports heavily braced.

The car is capable of holding a large number of persons, as was demonstrated a few days ago when Miss Helen Gould with her party of twenty or fifteen persons climbed to it at the same time and were accommodated without any excessive crowding. But no more than four men, over and above the provisions and other impedimenta of a long voyage ordinarily expected to travel in it at once, the lifting capacity of the gas-bag being only about four thousand pounds, and it being desirable to leave a considerable margin of reserve power.

In and under the floor of the car, directly in the center, is a Lambert gasoline motor, which supplies the energy by which the craft is driven. It is the invention of Prosper Lambert, of Paris, and is the most perfect that modern science can provide. It has four cylinders and a working capacity of twenty-eight horsepower. An electric battery at the side of the car explodes the gasoline, and the engine is kept cool by a coil of water-pipes, fed from two reservoirs, one on each side close to the forward rail. Stretching across the front is a double radiator through which the water passes in order to be kept at a low temperature. Attached to the engine underneath the car, is a muffler, which makes it run more smoothly and noiselessly than gasoline engines generally do. Most of the weight of the apparatus is in the center and below the floor. The gasoline tank is attached to the after rail, in such wise as to counterbalance the water reservoirs forward. The machinery can go six or eight hours without recharging, and it can be recharged without descending.

On each side of the car, in the center, is a wheel about four feet in diameter, from which the power is communicated, by means of broad leather belts, to the propellers, which are two-bladed lateral fans, one at each corner of the central car. The blades are six inches in width, and made of the French canvas, like that in the gas-bag, stretched upon hollow tubes of "olive" metal. The two forward fans act by suction and the two after ones by pulling. The first measure about ten feet from tip to tip, and the latter twelve feet. Mr. Francois claims that it is just as advantageous to have four propellers on an airship as to have four wheels on a wagon.

The Ville de St. Mande is said to be capable, unassisted by the wind, of a speed of twenty-five miles an hour in ordinary weather and thirty miles in a calm. No rudder is used, as the propellers on the two sides are capable of working independently and the vessel is turned by shutting off most of the power from one side or the same principle used in rowing and swimming. There is a mechanical device by which the vertical direction is perfectly controlled, but this is kept a rigid secret by the inventor.

Mr. Francois is originally from France-Comte, having been born in the town of St. Loup, department of Haut Saone. He has interested himself in the problem of aerial navigation ever since the Franco-Prussian war of 1870, when balloons were extensively used in blockade running.

After conceiving, and experimenting upon, fifty or sixty different types, he finally adopted the present one a little over twelve years ago. He has made several successful trips at Paris and was congratulated, after one of his ascents, on his successful aerial navigation. In some of these ascents the velocity of the craft was over forty feet a second; and with one of the preliminary models a speed of no less than seventy feet a second had been attained.

The present vessel was begun in September, 1903, and was named in honor of the city of St. Mande, the municipality of which had actively interested itself in the inventor's experiments, and where he has a residence. The city government of Paris itself has likewise extended to him its patronage, even going so far as to assist him in his studies and experiments by placing the great gallery of machines at his disposal. The latter is an immense permanent collection installed in one of the buildings, 1,800 feet long by 600 feet wide, built for the exposition of 1889.

Mr. Francois brought with him to St. Louis a crew of ten men. The captain, Ad. Moucheraud, besides the interpreter and business manager, Madame Clemence Magnien, is the aeronaut, one of the others is the machinist, and the remaining eight are skilled workmen.

If you enjoy muffins and waffles, try Mrs. Ann's Pancake Flour and you will be delighted with results.

AMONG THE
WORLD'S WORKERSNews Notes From Various Sources of
Great Interest to the Workmen.

The ninth annual convention of the International Seamen's Union will be held in San Francisco, Cal., in December next. This convention will be one of the most important ever held by the men of the sea, and representatives from every part in the country will be present.

Rumors are afloat in the east that Theodore Shaffer, president of the Amalgamated Association of Iron, Steel and Tin Workers, is slated for the position of head of the Bureau of Labor, to succeed Carroll D. Wright.

It is reported that the strike of the sheet metal workers in Philadelphia and other cities which began seven weeks ago, has been settled through an agreement with the employers by which strikes and lockouts are barred. The men have obtained an increase from 37 1/2 to 46 cents an hour in wages, Saturday half holiday during the summer months, and a guarantee that only union men shall be employed, while the employers have gained the advantage of immunity from all labor troubles in the future.

FALL PLOWING IS
ABOUT COMPLETEDWeekly Review of Crop and Stock
Conditions in Rock County—

Fattening Turkeys.

The farmers' fall work is rounding up in good shape. Weather conditions have been favorable for a month or more and the fall plowing is about completed. A larger percentage of the tillable land is now fall-plowed than in many years. The sugar beets are practically all pulled and are being delivered at the factory as fast as the company will receive them. As the market is a little off on the small grain, that line of work is suspended for the present. Hogs are marketing at about \$4.50 and cattle from \$2.50 to \$3.50. Sheep are now moving very much. Every farmyard appears to be full of poultry, but it is being marketed very slowly. The Thanksgiving turkey is getting ready for the big dinner.

MAY PLAY RETURN
ON THANKSGIVING

CHANCES OF GETTING FT. ATKINSON TEAM HERE.

SATURDAY'S GAME WAS CLOSE

Final Score: Fort Atkinson 12, Janesville 6—Caldow's 105 Yard Run for Touchdown.

As a result of the game Saturday at Fort Atkinson, there is a possibility of a return game being played at the Athletic park on Thanksgiving day. The Janesville management will make all efforts to secure the contest here but the Fort Atkinson team has a challenge from the Central high school of Minneapolis which they may accept. The Janesville team would undoubtedly improve by that time with hard practice and being on the Fort around the ends than through the lines, but top late in the game. This Saturday Madison high school will play here and one of the hardest contests is anticipated by both teams. Madison has not yet been defeated this year, while Janesville won a reputation to be envied in Saturday's game.

The score of the Fort Atkinson-Janesville game at Fort Atkinson Saturday afternoon was a surprise, not only to the Fort players, but to every member of the local team and every supporter. If Janesville had held them down to twenty points the Janesville players would have been satisfied, but to keep the game a tie through the first half and then to score once against the Fort's twice in the second was more than could be expected, even by the most enthusiastic of the Janesville players. It was a first class game from the first kickoff to the time the whistle blew for time in the last half and every inch that the Fort gained was made by hard line blocking. Janesville was the faster and better in running off end plays, while nearly all of the Fort advances were accomplished by mass plays over tackle.

Naught to Naught
The game opened when Janesville kicked off to Fort Atkinson, who after an exchange carried the ball to the Janesville five yard line where Sennott gained it on a fumble and Janesville advanced the play to the middle of the field. Fort again kicked the ball on downs, carrying it to the twenty yard line of Janesville, where Janesville gaining possession kicked it out of danger and time was called. Score—0 to 0.

Caldow Makes Touchdown
In the second half Fort Atkinson kicked to Janesville who was forced to punt and after a series of line bucks and mass plays over tackle the Fort scored its first touchdown, sending Krebs (left tackle) through tackle. Griffen kicked goal. Fort again kicked off to Janesville who returned the ball to the middle of the field where on downs Fort Atkinson secured the ball went down, the field with short steady gains, sending Sullivan, halfback, over for a touchdown and Griffen kicking goal making the score 12 to 0 in favor of Fort Atkinson. Once more the Fort kicked off and Caldow receiving the ball, fumbled by one of the other Janesville players on the five yard line, ran the rest of the length of the field—105 yards—for a touchdown through the whole Fort Atkinson team with no interference. When time was finally called the score stood: Fort Atkinson, 12; Janesville, 6.

Features of Game
The Fake punt, where Wilbur carries the ball, worked to perfection and he advanced it fifteen yards on the play. Feeley made some good consistent gains around the end and Ryan carried the ball for an advance

several times. Carle was sent from his position in the line and from the position of halfback for good gains. Galbraith made two long quarters from here who accompanied the team to the Fort were: Guy Chase, R. MacDonald, J. F. Carle, P. Caldwell, F. Myers, C. Morse, Louis Baker, Oscar Yahn, C. Connors, W. Pohlenchen, D. McKee, L. Harper, E. Adams, D. D. Manross, J. McManus, Dr. Sutherland, A. H. Bartlett, Dwan Wright, P. Connors, J. Devins, W. Langdon, George Casey, H. Jones, H. C. Buell, and the Misses Pearl Peters, Lucy Fox, Grace Winterroth, Crissie Galbraith, Genie Galbraith, Emma Richardson, Ruth Field, Margaret Field, and Ethel Field.

News for the Railroad Men.

Brakeman Waldo Litzinger of the Milwaukee passenger on the St. Paul is off duty and is on a hunting trip.

Plumbers are repairing and putting in order the steam fittings at the St. Paul depot.

Engineer Schoenberg and Gosselin secured fourteen rabbits Saturday afternoon on a hunting expedition in three hours time.

P. E. Woodbury, former night operator at YD tower has resigned and will accept a position in Montana with the Northern Pacific. He finished work here yesterday morning and operator McCrea of Atton is taking his place.

E. M. Loomis has reported for duty after being off several weeks on his wedding trip.

Fireman R. H. E. Loman is laying off on the north end freight.

Engineer Dunwiddie is relieving engineer Joe Sheker on the switch engine.

Master mechanic Heath transacted business in the city today.

Engineer J. Gosselin relieved engineer J. M. Smith on the Harrington turn around yesterday.

The aquarium in the office at the round house has been completed and the fish have been put in. Besides about thirty small blue gills, shiners and silver huss that were taken from the tank outside, there are three gold fish of very large size which were brought by Henry Brazzel from Fond du Lac. The outdoor tank has been emptied of fish, the larger specimens that were not taken inside being put back in the river and the water shut off. The aquarium in the office presents a glittering and beautiful appearance when the sun shines through the water and is reflected from the bright colored scales of the fish.

As a result of the recent acquisition by the Harriman interests of a half interest in the San Pedro, Los Angeles and Salt Lake road it is announced that at the annual meeting of stockholders on Nov. 18 six of the present directors will resign and the places to be taken by six Oregon Short Line directors, representing the Harriman interests. It is understood that the half interest in the San Pedro, Los Angeles, and Salt Lake acquired by E. H. Harriman and his associates is vested in the Oregon Short Line and the Salt Lake route extension to Los Angeles through southern Nevada will, it is expected, be completed within two months. As this will make a route from the Oregon gateway to Los Angeles fully twenty hours shorter than the present route via the Central and Southern Pacific lines, the anticipated entry of the Harriman forces into the Salt Lake directorate is regarded as of great significance.

Northwestern to Expand.
Announcement has been made that the Chicago & Northwestern will build extensive additions to its lines in Wyoming. The new lines are to be built by the Wyoming and Northwestern Railway company, recently incorporated by Northwestern officials, and will extend westward and north from Casper, the present western terminus of the system. It is probable that a line will be built from Casper to Lander, touching the Big Horn basin and Shoshone Indian reservation, with a branch to Thermopolis. Frank Lander the Northwestern probably will build to Ogden. It is said that the Northwestern may be interested jointly with the Union Pacific in the acquisition of the Chicago Great Western. Liquor Costs Many Jobs.
The stringent anti-liquor rule (that has been put into effect on the Montana divisions of the Northern Pacific) and its first demonstration recently. Three engineers, eighty firemen, two civil engineers and several foremen and yardmasters were summarily discharged for drinking.

It is the declared purpose of the Northern Pacific to rid its rolls of every man who is addicted to strong drink to any degree. The headquarters of the road in Minneapolis will not give out any names, but it is freely stated that the next batch of employees to feel the ax will be in the passenger department.

General Notes.
Traffic and operating officials of all roads terminating in Chicago made a tour of inspection on Saturday of the Chicago terminal transfer.

The Pennsylvania has established a new record for its western system when a special train with General Superintendent Shover on board made the run from Crestline, Ohio to Ft. Wayne, Ind., 131 miles, in 133 minutes, or at the rate of nearly seventy miles an hour.

THE 10c CIGAR HABIT.

How to Break Off This Expensive and Needless Habit.

No good business man would pay twice as much for his stock of goods as he ought. Why shouldn't he apply the same principle to his cigars?

The 10c cigar habit is expensive; it is also needless. Smith Drug Co. have put in a cigar, Wadsworth Bros. "Chico," that is as good as any 10c cigar ever made, yet it retails for 5c straight.

Just see how easy it is to break off that 10c cigar habit by smoking "Chicos." Stop at Smith Drug Co. and try a "Chico." See how easily it smokes, what a 25c aroma it has, how the ash stays on solid and white, without flicking or dropping. Smith Drug Co. have the sole agency for Wadsworth Bros. "Chicos" for Janesville and as this is naturally a 10c town, and people are accustomed to a 10c flavor, it follows that they will have a big trade on these cigars that give a real Havana fragrance and flavor at the 5c price.

Fair tonight and Tuesday; warmer tonight; fresh southerly winds.

A "healthy scare" is a good thing for a merchant now and then. When he realizes that "something must be done" he usually finds that the "something" is more and better advertising.

EASTERN EXPORTS.
 Exports from the United States to Russia, Japan, China, Hongkong, and Korea show a marked increase in 1904 as compared with earlier years. To each of the countries named the exports for the nine months ending with September are larger than those of the corresponding months of 1903, while in the case of China the figures although showing a marked increase over 1903, still fall slightly below those of 1902, but when combined with the figures of exports to Hongkong give a total greater than that for the corresponding months of 1902 or 1903.

The total exports from the United States to Russia, Japan, China, Hongkong, and Korea are shown by the Department of Commerce and Labor through its Bureau of Statistics as \$56,448,225 in the nine months ending with September, 1904, against \$44,801,356 in the corresponding months of 1903, and \$47,663,031 in the corresponding months of 1902.

Similar conditions prevail with reference to imports into the United States from the countries in question. From Russia, Japan, China, Hongkong and Korea the imports for the nine months ending with September, 1904, are in each case larger than in the corresponding months of the preceding year. The total imports into the United States from the countries named amounted to \$65,389,022 in the nine months ending with September, 1904, against \$60,375,925 in the corresponding months of 1903 and \$49,540,259 in the corresponding months of 1902.

In most of the principal articles composing the commerce between the United States and these countries there appears a material increase in the figures of 1904 as compared with earlier years. To Russia the principal articles of our export trade are agricultural implements, manufactures of iron and steel, copper, naval stores and raw cotton, and in most of these the figures of 1904 compare favorably with those of earlier years.

To Japan the principal exports are manufactures of iron and steel, mineral oils, flour, provisions, tobacco, and raw cotton. In nearly all of these articles, except cotton, the figures for 1904 show an increase over 1903. In cotton the figures show a marked decline in exports to Japan, the total value of cotton exported to that country in the nine months ending with September, 1904, being less than 2 million dollars, against over 3 millions in the corresponding months of 1903 and nearly 5 millions in the corresponding months of 1902. This falling off in the exports of cotton to Japan is chiefly due to the extremely high price of American cotton during the past two years and to the fact that Japanese manufacturers of cotton goods have substituted in part the shorter stapled and consequently lower-priced cotton of India in their manufacturing.

In other articles the figures of 1904 show a gain over earlier years. The value of flour exported to Japan in the nine months ending with September, 1904, is \$2,810,203, against \$2,563,069 in the corresponding months of 1903 and \$917,625 in the corresponding months of 1902. Electrical machinery exported to Japan shows a marked increase in 1904, being \$755,955 during the nine months ending with September, against \$214,555 in the corresponding months of 1903 and \$131,108 in the corresponding months of 1902. Locomotives exported to Japan in the nine months ending with September, 1904, were 55 in number, against 18 in the corresponding period in 1903 and 12 in the corresponding period of 1902, the value for the nine months of 1904 being \$412,100, as compared with \$178,213 in the corresponding months of 1903 and \$111,152 in the corresponding months of 1902. Steel rails exported from the United States to Japan during the nine months ending with September, 1904, amounted to \$680,689, while the corresponding months of 1903 show no exports of steel rail to Japan, and for the corresponding months of 1902 a total of but \$2,195. Mineral oils exported to Japan in the nine months ending with September, 1904, amounted to \$2,233,528 gallons, against 27,384,251 gallons in the corresponding months of 1902.

To China the exports in the nine

months ending with September, 1904, show a marked gain over those for the corresponding period of 1903. Cotton, cloths, mineral oils, manufactures of iron and steel and tobacco are the most important of our exports to China, though flour is becoming an item of growing importance, the total value of flour exported from the United States to China in the fiscal year 1904 being \$285,051 against \$77,342,342 in 1903. Of mineral oils the exports to China for nine months ending with September, 1904, amounted to 57,153,030 gallons, against 11,453,898 gallons in the corresponding months of 1903, and 25,485,485 gallons in the corresponding months of 1902, the value being \$6,013,067 for the nine months ending with September, 1904, against \$1,186,307 in the corresponding months of 1902.

Cotton cloths, of which the exports to China have been greatly reduced since the beginning of hostilities in northern China, which has been the special market for American products are now showing a remarkable increase in the export trade to China. In the month of September, 1904, the total exports of cotton cloths to China were 20,355,200 yards against 3,377,050 in September, 1903, and the value \$1,194,381 in September, 1904, against \$168,208 in September, 1903.

To Hongkong the exports include a great variety of articles, and in nearly all of these there is a material gain over last year.

In 1492 Christopher Columbus discovered America. In 1893 they had a big celebration at Chicago, four hundred years plus one. In 1893 the vast territory of Louisiana was purchased and in 1904, a hundred years plus one, this event was celebrated. In 1513 Balboa climbed a tree on the isthmus of Panama and first saw the Pacific coast. San Francisco plans for a celebration in 1913, four hundred years after. Add one year as usual and the celebration will be in 1914.

Next thing to do is to start digging the canal. Connect the Pacific and the Atlantic and annex Canada and the United States can swallow Mexico at a gulp to the advantage of Mexico.

California is now planning for a great world fair in 1913 to sink some more good money in. Simply because Balboa discovered the Pacific in 1513.

So Roosevelt is to become president of Harvard college when he gets through being president of the United States?

Russia expects Japan to attack the Baltic fleet in the Red Sea and is stopping at Crete to get everything ready for the slaughter that may follow.

France has about decided that President Roosevelt can settle that Japanese-Russian question as well as anyone. Still they talk about the big stick.

That story of the muskrat house being thin this winter has not yet been told although several reliable hunters claim to have seen geese going north.

Watson, the designer of the Shamrock II, which went down to defeat before the Columbia, has passed away.

Farmers can rejoice in the prospects for next year now their present crops have turned out so well.

Uncle Sam is now in a position to demand recognition from the money powers of the world.

The deer season is now in full blast, and the list of casualties will soon commence.

This is the weather that makes the coal men swear and the poor man smile.

No one has found a second crop of strawberries within the past few days.

Sir Thomas Lipton has decided not to lift that American tea cup after all.

Folk will be governor of Missouri even though Roosevelt is president.

Life is sweet to some people these days.

There may be changes in the cabinet but not many.

The election of Roosevelt has increased the American credit.

PRESS COMMENT.

Milwaukee Sentinel: With stern resignation Col. Watterston settles back to contemplate the decline and fall of the American republic.

Fargo Forum: Leap year parties are being held to give the girls a final whack at the bachelors.

Oshkosh Northwestern: That Brooklyna man who lived on a diet of grass all summer must be eating and by this time unless he has managed to get a job in a green house.

El Paso Herald: Japan is getting cock up to the point where she contemplates sending missionaries to white nations.

Superior Telegram: A Bob Dunn newspaper in Minnesota declares that the defeat of Dunn is due to the fact that he ate pie with a knife and the silk-stocking brigade wouldn't stand for it.

Racine Journal: The project of constituting northern Michigan, the peninsula part overhanging Wisconsin into a separate state, has again

months ending with September, 1904, revived. It however would beautifully round out our own state.

Waupaca Post: Necessarily, a good deal of space in this week's Post is taken up with election returns, and other political news. The election being over, however, we can all pay more attention to business in the future.

Monasha Citizen: A teacher, in the Oshkosh schools took an unruly pupil across her knee and paddled him until his pants actually smoked. This is no joke. The boy had a hip pocket well filled with matches which ignited under the pressure of the paddle and a small conflagration was only averted by pouring a dipper of water in his pocket.

Chicago Chronicle: The Debs vote in Illinois was 100,000 in round figures. It was cast mostly in the cities and in other localities where men are employed in large groups in manufacturing and mining, and where they have come most under the influence of the socialist labor organizers and agitators and strike bosses. The result in this state as well as in others pretty thoroughly disposes of the notion which has been too prevalent that the socialist vote is drawn mainly from the republican party. The result of the election seems to show plainly that the socialist vote comes from workmen who have usually voted the democratic ticket and not from republican workmen. The latter were loyal to their party. The former voted largely for Debs.

BRIEF BITS OF UNIVERSITY LIFE

Noted Students Have Entered the New Courses at the University.

This Fall.

Mr. Yoshimoto, Imperial railroad commissioner of Japan, is spending a month at the University of Wisconsin, studying in the libraries and American railway systems, as a part of an investigation which he is making of the management and operation of the railroads of this country.

Mr. Eero Erikko, who, before being expelled by the Russian government recently, was editor of the leading daily paper at Helsinki, Finland, and who is now editing the Finnish Journal of New York, visited the University of Wisconsin this week to confer with several members of the faculty in regard to forming an American committee to aid the Finnish national cause.

Cap. Maximilian Hemmala, who has served for twenty years in the Austrian army, has entered the University of Wisconsin to take up work in political science, in order to prepare himself for the Austrian consular service. Cap. Hemmala was attached to the university by the special courses such as those in international law and politics, colonial politics and administration, and the history of diplomacy, which the university especially provides for students preparing to enter the consular service.

The seven Japanese students at the University of Wisconsin celebrated the recent birthday of the Mikado in an appropriate manner. The deeds of the heroes that are struggling against Russian aggression were recounted, and a prayer was offered for the success of the Japanese arms, with the spirit that no matter how long the war continued, the sons of Japan were ready to take the place of their fallen comrades until the island empire should triumph over its enemy.

University Commerce Course Grows. The course in commerce of the University of Wisconsin begins its fifth year with a total enrollment of 206, a gain of 29 over the number of students last year. There are 99 now students registered in this course this year, of whom 93 are freshmen, and 6 have entered with advanced standing. Of the students who graduated from this course last year, three have entered the banking business, two are engaged in the lumber business, and one each in the business of railroad, paper manufacture, publishing and insurance.

Bacteria in Telephone Transmitters. One of the advanced students of bacteriology at the University of Wisconsin is making a study of the number and character of bacteria present in telephone transmitters under ordinary conditions.

COUNCIL MEETS FOR ROUTINE WORK

Regular Session Will Be Held at the City Hall This Evening.

There will be a regular meeting of the city council this evening. The election of marshal does not come until next meeting and it does not seem probable that anything other than routine business will absorb the attention of the aldermen.

Foreign Missionary Meeting

The thirty-first annual meeting of the Janesville district Women's Foreign Missionary society opened at Sharon N.Y. 8 and adjourned Thursday noon after a very interesting session. Sixty-eight delegates were present, representing nineteen churches. The Why of Missions was presented by four young ladies in very carefully prepared papers. Miss Phoebe Swan sent a paper on The Conditions in the Far East. The audience found a new meaning for the word "gossip." Wednesday evening, the Mrs. Cella F. McMurphy of Bash, Berar, India, spoke on India, Past, Present, and Future. The session closed with a good old fashioned Love Feast. Mrs. Marshall of Beloit, who always adds dignity and enthusiasm to these meetings, offered the prayer. Almost every lady in the room joined in singing: "Faith of our Father's living still, In spite of dungeon, fire and sword, We will be true to Thee till death."

Miss Carrie M. Spooner of Bayan is president. The next meeting is to be held in the new M. E. church in Beloit next November.

A VEILED THREAT AND ITS ANSWER

Anonymous Writer Offers The Gazette Some Advice Which Will Get Consideration as Merits.

Editor Gazette: Dear Sir: The election is over and the results plainly show which party is the true republican party in this state and as that party has not been represented by any newspaper in this city in the past and we think you will agree with us that it should be represented by a newspaper in the future, we trust it will not be necessary to organize a stock company to establish a newspaper that will represent republican principles as they are and should be.

The above anonymous communication, like all others of this class, represent a coward, who lacks the nerve to come out in the open and sign his name. If he has any money to invest in the newspaper business, now is a good time to invest it. The Gazette will continue to speak for itself and for republicanism.—EDITOR.

WRECK SIMILAR TO ONE ON WEDNESDAY

Happened Near Bardwell Last Night—Coal Car Broke in Two, and Several Cars Piled Up.

Last night near Bardwell the same kind of a wreck that occurred there last Wednesday night, happened, in backing up some coal cars on the same tracks there one car broke in two and threw several others from the track and piled them up in the ditch. Traffic over that line was blocked for a while.

RAN DOWN THIEF WHO ROBBED WAGON

Acting Chief Brown Captured John Sindler After Exciting Chase Saturday Night.

Acting Chief of Police John Brown captured a light fingered gentleman who had been helping himself to groceries in neighbors' wagons, after an exciting chase Saturday evening. John Sindler was the man and his home is on the Leeward road about a mile north of the cemetery. Frank Pufahl, keeper at the jail links, drove to town Saturday night and about ten o'clock, after leaving a number of packages of groceries and meat in the wagon hitched on the Corn Exchange square with his little ten year old boy in charge, went over to Baker's drugstore. Shortly after he had departed a stranger approached the wagon, helped himself to the packages, and then walked swiftly past the Sheridan flyby barn, sprang into a rig that was awaiting him, and started northward at a merry clip. The boy at once gave the alarm. Officer Brown was notified and immediately secured his horse and buggy and started in pursuit. The fugitive, a half mile start and the officer and Mr. Pufahl reached the cemetery without catching sight of their man. As they reached a farm about a half mile beyond, however, they caught a glimpse of a lantern passing from the barn to the house. Officer Brown jumped the fence and reached the doorway of the place just as the lantern-bearer entered the house. He knocked at the door and when it was opened, after some delay, Sindler stood before him. The man was discovered in the pantry and the stolen packages in the cupboard. When confronted with the evidence against him, Negules broke down and confessed. He is a married man, with a wife and one child.

TOO LATE TO CLASSIFY

ALLER says Skin Complexion Powder is best known adhesive, harmless, invisible. Four cents. 25c.

MRS. HOLLY WEST has taken the agency for a Swedish drawn work, and would be pleased to show it to the ladies of Janesville at her home in the Waverly flats.

WANTED—Position as clerk in grocery, by man of experience; am a no most cutter. Address in L. Gazette.

LOST—Patent leather watch fob with K. P. 12 chain. Reward. Leave at King & Gould's.

FORMER RESIDENT SUES FOR DIVORCE

Charles Cannons Asks to Be Freed Entirely.

LIVES IN CALIFORNIA.

Sensational Features of the Case From California Paper.

The following article, taken from the Los Angeles Times of October 25, is of interest to Janesville people, many of whom know the plaintiff in what promises to be a most sensational divorce suit. Mr. Charles Cannons has relatives in the city and is a son of the late Mr. Cannon who built Cannon's hall in this city, the structure now known as the Merrill block.

San Dimas, Oct. 21.—Charles H. Cannons, one of the wealthy and respected citizens of San Dimas, has commenced an action for divorce on the ground of desertion.

For some time there have been rumors of desertion. In fact, the Cannons home is being charged by the husband with desertion, and he is charging her with desertion. The charges upon Dr. Walter's appeal.

Three months ago the two agreed to separate, and Mrs. Cannons filed an action for divorce on the ground of cruelty and Cannons agreed not to oppose. Friends, however, intervened and proceedings were dropped but the truce was only temporary.

Last week matters reached a climax and on Thursday Mrs. Cannons left San Dimas with her personal effects and registered at the Willoughby hotel, Los Angeles, as "Mrs. C. H. Cannons, San Dimas."

What has aroused the suspicion of the people of San Dimas is the fact that Dr. Stanley left town on Wednesday night, and registered at the Van Nuys Broadway as "Walter Stanley and wife, San Dimas."

The manager of the hotel where Mrs. Cannons occupied her room for three days at the Willoughby, while the Van Nuys Broadway people say that Dr. Stanley had wife occupied one room at that hotel for three days.

The case is the more mysterious because Dr. Stanley and his wife had separated nearly two years ago, and the latter is supposed to be living in Paris, France.

Before her marriage to Cannons nine years ago, his wife was Mrs. Constance Mayne of Los Angeles, Mayne being in the employ of Hannaburgers, but on account of his long visit to San Quentin at the state's expense, she secured a divorce from her fatherly husband and married Cannons, and has since made no secret of the fact that she married him for his money. She is an attractive English woman, and has been a social favorite throughout this district.

Cannons's mother owns a twenty-acre orange grove here, while the home on the bluff was in the name of Charles H. Cannons's wife. On Saturday Mr. and Mrs. Charles H. Cannons met at an abstract office in Los Angeles, and in consideration of a certain cash payment then made to his wife, the latter relinquishes all claim on her husband, and deeded the house to him. She states that she will not fight his divorce proceedings, but that as soon as the law will permit she will marry Dr. Stanley.

Dr. Walter Stanley is an Englishman, who came here a little over two years ago. He had a splendid practice, and was popular, both socially and professionally. He has many friends here who are loath to believe the compromising reports about him. For several years he was in the employ of the British colonial government, with headquarters in the Cape, South Africa, his special duty being the investigation of the numerous contagious diseases of that country. He had received from the British colonial government, which induced Dr. Stanley to relinquish his practice here and prepare to return to South Africa.

The Doctor's Side

San Dimas, Oct. 25.—Dr. Walter Stanley of this place, whose name has been freely used in connection with Mrs. C. H. Cannons's latest affair, is still in Los Angeles. To a friend who dined with him last night he stated that owing to the publicity the affair has brought him he will not return to San Dimas, but instruct his friend to sell his furniture and personal effects and collect his accounts. As soon as arrangements can be completed the doctor will proceed to South Africa.

CURRENT NEWS NOTES

Forty Years Ago: Forty years ago today there was a severe snowstorm in this region. The first of the season.

Attention Comrades: W. H. Sargent W. R. Co. 21, will be inspected by Department President Mrs. Ellen P. Weatherly of Shullsburg on Thursday afternoon, November 17. All members wishing to drill for inspection will please meet at G. A. R. hall Tuesday afternoon at 2 o'clock sharp.

Attention A. O. H.: Members of the A. O. H. will take notice that the regular meetings have been changed from Sunday afternoon to the third Tuesday evening in each month at 7:30 (the first meeting to be held on Tuesday evening, Nov. 15th).

Fruit Farm: M. J. Paul has purchased thirty acres of the old Paul farm on Center avenue just outside the city limits and will turn the land into a fruit and vegetable farm. Mr. Paul has followed this line of work for a number of years in Milton and at the Columbian exposition won a first prize on a bushel of strawberries grown by himself.

Business Meeting: A regular business meeting of the Ladies Aid society of the Central Methodist church will be held tomorrow afternoon at two o'clock sharp. Large attendance is desired as there is work to be done. The ladies of that must be there. The ladies of the November division will give an afternoon coffee the same afternoon, beginning at four o'clock. Everybody is invited.

Life and Love. To live is to eat crusts; to live and to love is to banquet.

D. J. LINDSAY IS NOW IN CHARGE

New General Agent for the Northwestern Road in This City Assumes His Duties.

D. J. Lindsay, the new general agent of the North-western road in Janesville is a former Wisconsin resident, and despite his five years service among the Mormons of Utah is much interested in Wisconsin progress and Wisconsin people. He was born and brought up near Portage and has been in the railroad business for many years. He has served the Northwestern road in many positions from that of telegraph operator to general agent, which title he now holds. For several years he was agent at Watertown and later at Peperie. He is well-known among railroad men and popular with those who know him.

LODGE MEETINGS TONIGHT

Best 50c tea on earth. Nash.

Jersey butterline. Nash.

The supper to be given by the Married Ladies' Society of St. Mary's church Wednesday evening is postponed until Saturday evening, Nov. 19, from 5 to 8, at Foresters' hall.

Attend the concert Tuesday night at Central M. E. church given under the auspices of the Loyal Daughters' circle.

St. Patrick's Court No. 218, W. C. O. F., will give a dancing party Tuesday evening, Nov. 15th, at Assembly hall. Smith & Kneff's orchestra will furnish music. All those holding invitations to former parties are cordially invited.

Bulk Mich. apples, 15c peck. Nash.

Best 25c coffee on earth.

Father Vaughn, the great dramatic lecturer, opens the Y. M. C. A. entertainment course, consisting of five guaranteed attractions, Tuesday night, Nov. 15, single admission, 50c.

The attraction at the Y. M. C. A. tomorrow night is by far one of the greatest ever offered in this section. Father Vaughn stands today as one of the ablest men before the public and every minute of his talk is of absorbing interest.

EVANGELIST GAVE STRONG ADDRESS

CHARLES HUNT AT THE BAPTIST CHURCH YESTERDAY MORNING

SERVICES REST OF THE WEEK

Each Evening Except Saturday—Bible Studies Three Afternoons—Meetings for Boys and Girls.

Yesterday morning the Baptist church was filled with a great audience to hear Mr. Hunt. As a speaker, he depends little on incidents, especially of emotional character, but he seeks rather to appeal to the enlightened judgment of his hearers. A deep impression was made by his vigorous and logical message. His message was continued in the meetings of the afternoon. Prof. S. D. Goodale, who has charge of the music in the services, sang with effectiveness "The Shepherd's Call." Two large choruses, children and adults, are being organized under his leadership.

Ezekiel and Roosevelt

Mr. Hunt closed his discourse in part on the words of Ezekiel 3:17, "Son of man I have made thee a watchman with the house of Israel; say unto them, I will be to them a wall, and they shall be to me." He said that the two walls in our city reminded him of the expressions with which Roosevelt is said to have greeted the news of his nomination; later of his election. On the first occasion he said that he was "delighted," on the second that he was "highly gratified." He spoke of the call which came to Ezekiel as one which in its essentials comes to all disciples of God. Religious privileges are not ends in themselves but means to an end. The field is the world and the church is the force which Christ works. The possibility that we can be used to bless our fellow-men is one that often dawns slowly upon us. We are prone to think that the gospel is a truism, like the sunlight discernible by all and available to them. But we forget the misconceptions and prejudices which blind human eyes and make so imperative the simple word of interest and counsel. As the need is so great as the opportunity endless.

The Method of Jesus

The worldwide word of Jesus to a woman with a deranged life brought her the light of God. None will feel the impulse to warn unless they feel the loss and ruin of sin and alienation from God. A vital appreciation of the high things of life underlies all invitation to return to God. But even the humblest Christian who is personally right with God will find sometimes his simplest word the evangel of Jesus to lives impoverished and seared by worldliness, and sin. The largest blessings in religious efforts are attainable only as Christian people realize the burden and the opportunity of service and give themselves earnestly to the dissemination of the gospel.

Other Services

At the men's meeting at the Y. M. C. A. building yesterday afternoon, Mr. Hunt spoke to about two hundred men gathered in the auditorium and last evening again at the Baptist church. The topic of his address was "Righteousness and Iniquity."

During the week services will be held each evening at the Baptist church at which Mr. Hunt will speak and Prof. Goodale will accompany him.

On Tuesday, Wednesday and Thursday afternoons at three o'clock there will be Bible studies and on Monday and Friday afternoon at four o'clock there will be special meetings for the boys and girls. The regular services in the evening at 7:30 o'clock will be as follows: Monday, Nov. 14—"Helps and Hindrances;" Tuesday, Nov. 15—"Faith and Works;" Wednesday, Nov. 16—"Potent Prayer;" Thursday, Nov. 17—"God's Love and Justice;" Friday, Nov. 18—"Subject to be chosen."

Committees in Charge

A general committee has been appointed by Rev. Vaughan to have charge of the meetings with C. D. Child as chairman. The other committee is comprised of Judge B. F. Dunlap, Fred P. Grove and Wilson Lane. L. K. Crissey, I. A. Whiffen and Ernest Clark composed a committee that will have in charge the music. J. T. Fitchett, Myers-Rasmussen and Eugene Currier are on the advertising committee and W. H. Rose, A. C. Campbell, C. P. Beers, F. J. Bailey and W. E. Clinton are the members of the finance committee.

Thurber Pictures

TO BE SHOWN HERE

Famous Chicago Collection Will Be Exhibited at Public Library.

Beginning Wednesday.

The exhibition of paintings to be held in the public library art gallery under the auspices of the Janesville Art league will open Wednesday evening, Nov. 16, and will remain open afternoons and evenings during the week. The collection which has been selected from the Thurber art galleries of Chicago will contain several important pictures and will be much larger than the one exhibited in Janesville last April. Mr. Seymour Thurber will be in attendance and will give interesting talks on art topics. A collection of reproductions suitable for Christmas presents will also be on exhibition in the small rooms connected with the art gallery. The proceeds of the exhibition will be used to purchase a picture for the permanent art collection by the Art league. The admission will be 25 cents; season ticket, 50 cents; children, 10 cents; season ticket, 20 cents.

M. H. Whitaker is in Madison on business.

Mrs. W. B. Tucker of Osage, Ia., who has been visiting her parents, Mr. and Mrs. Thomas Pratt, for the past few weeks, will return home this evening.

SUFFRAGE SOCIETY OPENING PROGRAM

Question of the Ballot Will Be Discussed Tomorrow Afternoon—The Evening Addresses.

Arrangements for the opening of the convention of the Wisconsin Women's Suffrage association at the Congregational church are about completed. The morning session will be devoted to the business of organization. Rev. R. M. Vaughan will open the afternoon session with a prayer and Rev. Olympia Brown of Columbus, Wis., will give a short address, after which the question—Why Women Should or Should Not Have the Ballot—will be discussed. Mrs. Nellie Lawton of Plattville will open the discussion and her remarks will be followed by short addresses by volunteers. An original poem by Mrs. Clara Eastland, of Little Rock, Ark., will be read and those in attendance will be invited to join in the congregational singing. The evening's program will be opened with a short address by Mrs. Etta Gardner, of Plattville. A symposium of addresses by representatives of the women's societies of Janesville will be next in order. Mrs. F. S. Eldred will appear for the ladies of the Congregational church; Miss Louisa Hanson for the Presbyterian; Mrs. B. F. Dunlap for the Baptist; Mrs. F. M. Poorman for the W. C. T. U.; Mrs. Carrie Glenn for the Women's Relief society; and Mrs. W. F. Howarth for the History club. The Art league and the D. A. R. will also be represented. Mrs. E. O. Kimberley appearing for the former. Miss Margaret Taylor of Broadhead will give a recitation and Rev. S. M. C. Perkins of Cleveland, Ohio, will deliver an address.

The programs arranged for the two days are as follows:

Tuesday Evening, 7:30.

Address—The Denominational Outlook from Des Moines. Rev. S. P. Wilder, D. D., Delavan, delegate to national council.

Address—The World's Evangelization. The meeting of the American Board at Grinnell. Rev. Geo. R. Lennett, D. D., Beloit.

Wednesday, Morning Session.

8:30—Registration.

9:00—Devotional.

9:30—An Informal Conference on Missionary Responsibilities in Wisconsin. Secretary Carter, Superintendent Robinson, Prof. Burr, Mrs. D. M. Olds, Mrs. J. H. Dixon and others.

10:20—"The Voice of One Crying in the Wilderness." Principal M. J. Pennington, Ashland.

10:50—"The Evangelization of the Country Districts." Rev. L. P. Parr, Edgerton.

11:10—Open hour for discussion and business.

12:00—Dinner served in the church dining room.

Wednesday, Afternoon Session.

1:30—"The Development of the Bible." Rev. Wm. Moore, Clinton.

2:00—"The Bible and Education." Rev. Edward D. Eaton, D. D., president Beloit college.

2:20—"Are the Results of the Higher Criticism of the Bible Compatible with Constructive Spiritual Work?" Rev. R. C. Denison, Janesville.

2:40—"The Church and Women." Some Observations of a Churchman. Mrs. J. L. Ford, Janesville.

A View from the Parsonage Window. Mrs. F. V. Stevens, Whitewater.

The Brief of a Missionary Woman. Miss Frances Ryckman, Janesville.

3:00—"The Church and Men." As Seen by a Young Man. Rev. W. Irving Maurer, Beloit.

3:30—Discussion.

Business.

Wednesday, Evening Session.

4:30—A Notable and Suggestive Victory near at Home. Rev. John W. Wilson, Lake Geneva.

5:00—"The South and the Negro." Mrs. Ida Vase Woodbury, New York city.

Adjournment.

BORT, BAILEY & CO.

A Few Facts We Wish You to Realize

- FIRST.—We handle more Dry Goods in our two large stores together than any other concern in Southern Wisconsin outside of Milwaukee.
 SECOND.—There are thirty-six people employed in our two stores.
 THIRD.—We buy for our two stores over Two Hundred Thousand Dollars worth of Dry Goods merchandise each year.
 FOURTH.—Our purchases for the two stores are so large that we buy seven-eighths of our goods direct from the manufacturer and importer and pay no middleman's profits.
 FIFTH.—We pay spot cash for every dollar's worth we buy.
 Now don't you think we are in position to buy goods right? Well, we do that very thing, you may depend upon it.

NOW ABOUT SELLING:

FIRST.—We sell every dollar's worth of goods for cash. SECOND.—We don't lose a dollar on bad accounts. THIRD.—We don't give away several hundred dollars worth of "truck" to induce you to trade with us. Those methods are simply "schemes" pure and simple. "You have to pay the fiddler."
 Now don't you think we are in position to sell Dry Goods cheap on good square business principles?

We will do you good every time. Try it.

A Great Fur Offer!

We have just received from a manufacturer over Two Thousand Dollars worth of Ladies' fine Scarfs and Muffs. They comprise all the latest shapes and the most popular material. You will find:

Isabella Fox Scarfs, Sable Fox Scarfs,
 Marten Scarfs, Opossum Scarfs,
 Blue Fox Scarfs, Near Seal Scarfs,
 With the large Muffs to match.

**We Have the Goods and Our Prices Are Low.

SECOND WARDERS BADLY DEFEATED

All Americans of Rockford Pile Up
 Score of 23 to 0 Against
 Local Eleven.

Rockford proved to be too strong for the second ward team yesterday afternoon when they met the locals on their home grounds and rolled up a score of 23 against Janesville's nothing. The Forest city team goes by the name of the All Americans of Rockford. Their superior team work and weight was responsible for the crushing defeat of Janesville. The line-up of the two teams was:

Rockford Janesville
 H. Garrett.....le. A. Smith
 G. Palmer.....lt. W. Tyler
 H. Brobst.....lg. D. Smith
 H. Beverly.....lh. J. Murphy
 C. Johnson.....c. E. Brown
 F. Jones.....re. J. Joyce
 G. Pierce.....rt. C. A. Whitely
 C. Otto.....vg. F. Hiley
 P. Golden.....rh. L. Matthews
 G. Muthmer.....qb. F. Daly
 J. Speer.....fb. F. Hutchinson

Second Ward Juniors
 The Second Ward juniors were also given a drubbing yesterday on the gridiron by the First Ward Juniors, both teams of this city. The contest took place on Bunker hill and though hard fought from start to finish the final score stood: First, 21; Second, 0. Rough playing is said to have marked the work of several.

Dynamite Rippers
 The Dynamite Rippers played a game which ended in neither side scoring Saturday morning in the town of Fort Atkinson with a team from that city. The Rippers were light compared to their opponents, but they lived up to their name and ripped through the line and around the end just the same. They lined up as follows: le, Dudley; lt, E. Griffin; lg, J. McCaffrey; c, Hesser; rg, Aldrich; rt, Erdman; re, F. Field; qb, J. Griffiths; lh, Shaffer; rh, Briggs; and fb, F. McCaffrey.

Annual Conference: The annual conference of the Daughters of the American Revolution of Wisconsin will be held in Milwaukee Nov. 21-22. The meetings will be held at the club room of the Hotel Pfister. The opening session is Monday, Nov. 21, at ten p. m.; evening session, eight p. m.; closing meeting Tuesday to be followed by a luncheon at one o'clock given by Milwaukee Chapter D. A. R. at the home of Mrs. Brown, state regent. All members of the local chapter are cordially invited to attend all meetings.

MRS. ROOSEVELT GOES TO GOTHAM

Will Do Her Fall Shopping in New York City This Year—
 Returns Friday.
 (Special by Scripps-Howard.)
 Washington, Nov. 14.—Mrs. Roosevelt this morning left for New York to visit relatives until Friday.

TRADES COUNCIL TO HOLD DEBATES

First Will Be on Municipal Ownership
 ship at the First Meeting
 In December.

At the suggestion of J. Cassidy at the last meeting of the Trades Council in this city it was decided to carry on a series of debates at the sessions to be held during the coming cold months and a question and speakers have been assigned for the first meeting in December. The object of the innovation was to increase the interest in the meetings when subjects chosen for such discussions will deal with unionism, the policy of government as it would be under a union regime and other questions of special and particular interest to the working man. The first debate will be on the topic, Resolved, that Municipal Ownership is a benefit to the Community. J. C. Osborn and J. J. Cassidy have been assigned the affirmative side and T. J. McKelue and Fred Schmidt the negative.

CAR "GRASSLAND" ARRIVES IN CITY

With Its Exhibit of Agricultural
 Products from Northern
 Countries.

G. G. Paige, representing the North Wisconsin Farmers' association of Iron River, arrived in the city yesterday with his special car "Grassland" containing an exhibit of grasses and vegetables grown in Ashland, Iron, Douglas, and Bayfield counties of this state. This association is sending this car on a tour of the country to advertise the country along the southern shore of Lake Superior, the idea being to attract new settlers to that region. It has already toured Iowa, Illinois, and several other neighboring states and will be on the road all winter. The car is on the side-track near the Northwestern depot and will be here until Wednesday. Visitors will be welcomed without charge.

Uses a Loaded Revolver.

Alfred Vernon, at Leytonstone, England, sang at a club a song entitled: "I Wonder Where and What the End Will Be?" It is a story of a gambler's life, and Vernon had to place a revolver near his head, pretending to commit suicide. The revolver was accidentally fired and inflicted a fatal wound.

FOOTBALL AT THE FOURTH WARD PARK

Woggle Bugs Defeated Downtown
 Swells by the Score of 6 to 5, Saturday

There was a hotly contested football game at the Fourth ward park Saturday morning, in which the Woggle Bugs defeated the Downtown Swells by the score of 6 to 5. The teams were captained by James Spohn and Mattie Ryan. The lineup was as follows:

Wood From Sawdust.

From the sawdust of the mills in general an artificial wood has been made through a combination of heat and hydraulic pressure which is promising for the era of artificial woods. It is harder, devoid of grain, susceptible to a high polish, and in many ways approaching the qualities of ebony and mahogany.

Buy It in Janesville.

HERBERT HOLME

11 West Milwaukee Street
